

CF34 -3 /-8 /-10E IGNITION SYSTEM

THE CHAMPION ADVANTAGE

Cost-effective ignition systems for CRJ & ERJ aircraft for improved reliability and longer life.

- **CH92100 Stainless-steel Exciter*** for improved corrosion protection. No paint required.
- **CH53515 Leads*** (Models -1 through -10)
- Ignition leads include a captured spring assembly and increased igniter end temperature/dielectric protection.
- Meets highest standards in vibration and temperature testing using standard circuitry
- **CH31965*** CF34-10E Igniter has excellent in-service performance compared to the IPC listed design (no tip liberation).

**FAA-PMA Approved*

IGNITION LEAD DESIGNED FOR THE CF34 ENGINE

- Utilizes higher-temperature seals and materials
- Helps prevent premature wear
- Incorporates a captured spring assembly that eliminates risk of lost piece parts
- Two year new parts warranty
- Designed for longer on-wing reliability

PART #	ENGINE MODEL	ALTERNATE VENDOR PART #	ALTERNATE ENGINE OEM PART #

STAINLESS STEEL EXCITERS

- No paint required
- Lower cost for new, price competitive with an overhauled OEM part
- Utilizes standard circuitry
- Improved corrosion protection for connectors
- Two year new parts warranty and core exchange

CH31858-2 & CH31926 IGNITERS

- Eliminates the need for crows foot attachment/breaker bar installation
- Reduces installation/removal times and labor
- Lowers the risk of damage to ignition parts during maintenance
- Prevents potential injury due to seized/stripped “B-nuts”
- Iridium pin design for longer life
